Acknowledgment of Community Service

To Whom It May Concern,

I am pleased to express my sincere appreciation for the meaningful services provided by the Charismatic Social Integration of Canada (CSIOC). Their dedication to community development has touched the lives of seniors, youth, newcomers, and vulnerable individuals across our region.

CSIOC has been especially impactful in supporting seniors' well-being. Through digital-skills training, social-media engagement, and awareness programs on seniors' rights, the organization helps older adults overcome loneliness, stay connected, and participate confidently in today's digital world.

I have attended several CSIOC events, including community seminars, workshops, and wellness sessions such as yoga, breathing exercises, and mindfulness meditation. These programs create a supportive environment that promotes both physical and emotional health.

One of the most memorable initiatives is the Annual Summer Camp for seniors and youth. Held in a scenic and relaxing setting, the camp offers awareness workshops, educational seminars, and opportunities for intergenerational bonding. It is a unique and uplifting experience that reflects CSIOC's commitment to holistic community development.

CSIOC also provides essential support to refugee claimants and newcomers who arrive in Canada with urgent needs. By helping them secure affordable accommodation, access household essentials, and settle into their new environment, CSIOC offers comfort and stability during a challenging transition.

In addition, the organization consistently advocates for human rights, raises its voice against persecution, and promotes multiculturalism, anti-racism, anti-hate initiatives, and the celebration of diversity.

I extend my heartfelt gratitude to CSIOC for its compassionate service and its ongoing efforts to build a more inclusive and caring community.

Sincerely,

Rowena Talia
